EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

After "Process", Insert --To Prevent Extrusion into Openings--

b) In the Claims

In claim 19, line 4, after "target", insert -- by controlling power supplied to the target--

c) In the Drawings

Insert page 16 of the formal drawings, attached.

Reasons for Allowances

On 8 November 2005, John L. DeAngelis, JR. (Reg. No. 30,622), attorney for applicant stated that Anderson et al., US Patent No. 6,720,261 B1 was commonly assigned at the time of filing the application. The following is an examiner's statement of reasons for allowance: in claim 1, lines 1-4, the combination of a wafer of a first material, an overlying second material, with a plurality of openings with limitations of sputtering and maintaining the wafer below a critical temperature above which the first material can extrude into one or more of the plurality of openings while depositing the

target material can not be found in the prior art of record. Chen varies the power of the sputtering but does not refer to a critical temperature of extrusion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.
